Sir,

Adverting to the correspondence ending with your letter No. L.11144 dated 26-11-1947 forwarding a copy of your letter No. L.7752/MI 157-44-49 dated the 13th February 1945 regarding the deviation of Storm Water Drain in Kumara Park Eastern Extension for forming 5 building sites, I have the honour to state that the spot was inspected by me on 15-12-1947 and it was found that the layout as proposed by the former Engineer Officer was not possible to be formed as the rear portions of the buildings if sites are formed in the area would be facing the main Roads and of decent dwellings It was further found that a main sewer line was also running in this area It was therefore considered desirable to leave the area vacant to be later on developed as Children's play-ground and open space for other amenities This was placed before the Board together with the site plan of the area for consideration at its meeting held on 26-1-1948 After examining the plan in detail and considering the need for some open space in the area and the several disadvantages the buildings if put up on the proposed sites would be subjected to, it was resolved

"That in view of the sewer line running in the midst of this area and also in view of the necessity for having a little lung space, it was not desirable to convert the area into sites

That the area be set apart for a small park and children's play ground "

P T O

I accordingly request that sanction of

kindly be obtained to the resolution of the Board. The site of the area referred to above is also enclosed for favour of reference.

I have the honour to be,
Sir,
Your most obedient servant,

C.N. Narasimhan

CHAIRMAN,
